+ PROJECTS

SELENÊ
Python, Django, PostgreSQL | Apr. 2021

A front and back-end Django app for an online self-care retail store. Heavily styled with CSS and HTML for a pleasant User Experience and optimal product showcasing. Selene uses Django shopping cart for handling cart and checkout.

FARMONY
JavaScript, MongoDB, Express, React, Node.js | Mar. 2021

- Farmony is an app for connecting local farmers and their communities. Built with a team of two others.
- React is the front-end framework for dynamic community pages that allows users to make posts and comments. Four community boards encourage trading, buying/selling, volunteering and general chatting.
- Uses Cloudinary API to allow users to upload photos to their profile.

MUSE
Javascript, Express, PostgreSQL, Node.js | Feb. 2021

- An app for sparking inspiration in visual creators with artist's block.
- Uses API from three sources. The Harvard Museum and Rijks Museum APIs provide the images that are displayed randomly along with 3 colors. Users also have the option to save the info for later use.
- Uses Cloudinary API to allow users to upload photos of their work and display on a profile page with the inspiration. This app uses authentication.

DOOR DEFENSE
HTML, CSS, Javascript | Jan. 2021

- Door Defense is a game inspired by my difficult interactions with anti-maskers as an essential worker.
- A click based web game with moving objects. Type animation for dialogue, life decreases, timed rounds with added difficulty for each.

+ WORK EXPERIENCE

CREW MEMBER
Trader Joe's, Grosse Pointe, MI | Aug 2020 - Present

- Maintain store cleanliness, regulate customer entry, enforce safety protocols during a global pandemic.
- Complete time-sensitive tasks as a team member, such as stocking morning deliveries, and afternoon restocks in a fast-paced environment, ensuring product availability, and customer/team safety hourly.
- Multitask, handling cash and product efficiently while maintaining Trader Joe's excellent reputation with friendly conversation.

FRONT-END SUPERVISOR
BetterHealth Market | Sep 2016 - Aug 2020

- Trained new employees monthly on POS systems, customer service and product knowledge.
- Maintained customer relationships, upholding a strong reputation for customer service and communication.
- Handled large amounts of cash daily. Supervised 6 cashiers during the day and 2 nightly closing cashiers' cash count, ensuring accuracy at end of day.
